UNIVERSITY MAY HAVE NATIONAL QUOTA FOR THE UNITED WAR WORK HOSTESS HOUSE SOON CAMPAIGN RAISED FIFTY PER CENT

JOHN R. MOTT GIVES REASONS WHY WE NEED \$250,000,000

It was originally planned to raise \$170,500,000, for the seven organizations the United War Work Campaign. At a recent meeting in Chicago, John R. Mott gave ten reasons why much more is needed for successful work overseas. The reasons follow:-

WHY WE NEED MUCH MORE THAN \$170,500,000

- 1. Because of the remarkable increase of the American Army and of its inevitable continued increase. The budgets of at least three of the seven organizations uniting in the forthcoming Campaign were based on data assembled last spring, when it was thought there would be not more than 1,000,000 American soldiers in France by November first. As a matter of fact, the number there by that date will be 2,000,000. When those budgets were made, moreover, it was thought that the total number of American soldiers on both sides of the Atlantic by next summer would not exceed 3,000,000, whereas our military leaders are now preparing for an American Army, before the end of next summer, of between 4,000,000 and 5,000,000.
- 2. Because of the marvelous expansion of the American Navy. When America entered the War, we had less than 70,000 men in the Navy. There are now over 600,000 sailors and marines and the number will be further greatly increast. Relatively, the organizations whichare uniting in their Campaign have neglected the Navy, but it is their desire to help this arm of the service as much as any other, and therefore a much larger sum of money will be needed for this purpose than is now included in their respective budgets
- 3. Because this war, unlike others, is not alone a war of armies and navies, but a war of entire peoples. In particular, it involves vast numbers of the industrial classes. Since our financial plans were announct, the claims of these classes at home and overseas have been prest upon us, and it has been made clear that we must augment greatly our efforts on behalf of the millions of men and women at work in arsenals, in navy yards, and in countless militarized and other indispensable war industries.
- 4. Because the burden of this war falls so heavily upon the women of America and of the Allies. They have taken the places of multitudes of men engaged in ordinary occupations and have thus released millions for the fighting forces. They are also largely engaged in making munitions and in other essential war industries. The facts concerning the needs of women affected by war conditions convince us that a much larger financial provision should be made on their behalf than the budget of ou rorganization contemplate.
- 5. Because of the comprehensiveness of the ministry being rendered the American Army and Navy and the forces of our Allies. It is the aim of these agencies to place at the disposal of our soldiers and sailors all that is best in American life. We represent to them the American home, the American school and college, the American library, the American forum, the best phases of American club life, the finest aspects of the American stage, and above all the American Churches and Synagogues. This is a colossal program and calls for a large expenditure of money—an expenditure necessarily increasing with the growth of the Army and Navy.
- 6. Because of the continuity of the service we are seeking to render. We aim to follow the soldiers and sailors from the time they leave their homes, while they are in transit, while they are at the training camps, large and small, while they are on their way to the ports of embarkation, as well as at those ports, while they are on the sea, during their stay at the ports of debarkation, during their experiences in further training overseas, in the zone of combat John R. Mott says, "This is a war of including the front line trenches, while they are at leave resorts or in the Many of these books are donated by the entire people. It is also a war of hospitals or in the prison camps, and then all the way back to their homes. The volume of expenditure necessarily grows with the steady enlargement of
 - 7. Because of the imperative need of placing all these helpful facilities at the service of the French Army of 4,000,000, of the Italian Army of 3,000,000, and of the smaller but very important armies of Russia, of Belgium, of Portugal, of Macedonia, of Palestine, of Mesopotamia, and of Egypt. The claims of these Allied Armies were not sufficiently recognized in the framing of our budgets.
 - 8. Because of the indescribable need of the millions of prisoners of war. who must look to us solely for a comprehensive program in the interest of their physical, mental, social and moral well-being,
 - 9. EVEN THO THE WAR WERE TO END WITHIN A FEW MONTHS, OR A FEW WEEKS, WE SHOULD STAND IN GREAT NEED OF A FUND OF MORE THAN \$17,500,00, BECAUSE THIS WORK, UNLIKE THAT OF MANY OTHER AGENCIES, WILL HAVE TO BE CONTINUED THUOUT

composed of women in such numbers that it seemed that there would be "for every fighter a woman worker."

This sudden inrush of women into the Industrial world, a world which was altogether new to many of them, brought about conditions which for a time threatened to be disastrous. Housing accommodations were inadequate, and the government could not in a short time erect sufficient buildings to meet the demand for them. There was the question of feeding, of recreation, of developing that group spirit which would guarantee the contentment so necessary for the accomplishment of good work.

Was it not fitting that the government should commandeer for solving these difficulties the Young Women's Christian Association, that organization which has workt since its founding against all those forces which threaten the happiness and well-being of the young womanhood of America? Among its pre-war activities, the Y. W. C. A. had in every Industrial city a regular program of work under the direction of the Industrial Committee, and it was upon this foundation of experience that the special war work was built.

Thruout the war, the work of the Y. W. C. A. has been to meet emergencies. It has planned and obtained temporary quarters for girls who came as strangers into over-crowded towns. and then supervised the erection of model permanent lodging houses, furnished by the government. It has followed the girl into the factory and made suggestion for the improvement of conditions there. Among other things its work has been to organize clubs with rest rooms and recreation halls, frequently to conduct cafeterias, and to open classes where young women who have left school to work may study English, French, Spanish, dress-making, current events, etc.

"Thousands of women are engaged in the making of munitions, in the production of food, and in the manufac ture of clothing. Whether thousands more will be forthcoming and whether their morale will be equal to the tre mendous strain put upon them depends largely upon the housing, feeding and recreation facilities available The young Women's Christian Association has gladly accepted its share in the work, to be done and has put its organization at the service of the Government in the crusade for 'Free dom. Justice and Democracy."

The work has not been confined to America. Estelline Bennett says "Wherever the woman and the young girl have gone out from the beaten ways to meet the new demands upon them, the Young Women's Christian Association has raised the Blue Tri-It has gone with the nurse to the fields of Flanders, mothered them watcht over their physical well-being, and stimulated their courage. tangled war problems. Thru all the red riot of revolution these women hav estuck to the task, fleeing from Petrograd when the authorities thought it necessary, holding classes i English, book-keeping, stenography by the flickering light of a few scattered candles when the mid-afternoon twilight of a short Russian winter day settled down upon them and a great need and scarcity limited the supply of electricity, kerosene and candles.

So the work has been carried on all during the war, from the banks of the Volga to the walled and harred factories of Japan, and from the interior of China to the shores of the Ganges."

War Camp Community Service Does Its Bit Over There

\$15,000,000 NOW NEEDED

The War Camp Community Service one of the seven organizations for which the coming campaign is to be waged, was organized in 1917, when the Playground and Recreation Asso ciations of America was called upon by the commission of which Raymond And come, this sheltering roof to Fosdick is leader, to carry on their endeavors in the communities adjoining the camps, organizing social and recreational resources in such a way as to be of the greatest value to the soldiers.

In some six hundred communities the War Camp Community Service for the care and comfort of the men. The "take a soldier home to dinner" habit was one of its greatest contributions. It establishes centers in each community which furnish the best environment to a man in a strange city. The man therefore finds conditions as nearly normal as those at home and in many cases more so. He meets and knows business and professional men and visits in their homes, a factor which helps to steady one new in the

MORE FUNDS NEEDED

The Knights of Columbus are "on the job." They are very popular as is shown by the figures of the amount raised in their first campaign, \$11,-241,529. Now that this organization is asking for funds it is well to know something of it.

The K. of C. first entered war work during the Spanish American War, then on the Mexican border it assembled its forces and erected a chain of service buildings in New Mexico, Arizona and Texas. Now in the world war its secretaries are everywhere, in camps and training stations in this country, in the base hospitals, in Italy, France, Flanders, on the transports and at points of debarkation over there. In September of this year there were 300 workers of this order in France, 450 on the way to the field and 200 more being fitted for service.

Clubhouses have been erected at points of embarkation in this country and debarkation in France and seventy-five secretaries have been assigned duty on the transports. One hundred secretaries have been ordered to Italy where ten buildings are being put up.

The order has three buildings in London, a headquarters building in Paris and forty-five permanent huts in France.

When General Foch ordered the offensive this summer the Knights of Columbus followed. Supplies sent from America were carried in a fleet of huge motor trucks up behind the lines, where they could be distributed to the fighting forces.

The poem which follows shows the spirit in which the order accomplisht its work.

"They do not ask the faith or creed Of him that comes into their hut: True knighthood's door is never shut Against a pilgrim warrior's need. They question only: Would you rest, And are you weary and opprest? Then, brother, lay aside your care, share."

Mr. Fosdick says "From my personal observation of the K. of C. work abroad and at home I can most cordially endorse it. The work of the K. of C. is directly related to the winning of the war. It should be sup-Catholics, Jews, all. I have seen it in operation and I know that it is conducive to the best morale among our

REASONS GIVEN FOR UNITING IN CAMPAIGN

Wilson in Letter to Fosdick **Praises Work Done**

President Wilson, in a letter to Raymond Fosdick, the chairman of the Commission on Training Camp Activities, states the reason for combining the seven organizations for the coming campaign.

President Wilson says:

"The War Department has recognized the Young Men's Christian Association, the Young Women's Christian Association, the National Catholic War Council, the Knights of Columbus, the Jewish Welfare Board, the American Library Association and the Salvation Army as accepted instrumentalities thru which the men in the ranks are to be assisted in many essential matters of recreation and morale.

UNITED WE SERVE

The Kernel honors itself when it devotes an entire issue to the business of arousing in the student body, the heartiest interest in the United War Work Campaign which began Monday, November 11.

It is not only a duty, but a distinct privilege, a genuine pleasure to co-operate with the constructive forces so vigorously at work, the agencies thru which, in the words of President Wilson, "the moral and spiritual resources of the nation have been mobilized behind our forces and used in the finest way and which are contributing directly and effectively to the winning of the war."

When our soldiers were mobilized on the Mexican border a few years ago, the vice interests of the country mobilized their forces on the border also. As there were no wholesome recreational facilities for the benefit of our boys during their leisure hours, the result justified the it comes to the United War Work government's investigations. Out of these came the determination to surround our fighting men thereafter with every influence for good, in order that their hours of relaxation might be spent sanely, and that clean sports and healthful activities of all sorts might renew them and make them fitter defenders of the ideals typified by the flag.

To this end, when the present war gript our determination, the great social, moral and educational bodies began to concentrate on programs of helpfulness. At different times these agencies have waged campaigns. Again and again the public has been called upon to contribute to separate organizations engaged in the same kinds of essential work.

Today we are again urged to contribute but differently. Instead of making seven contributions or even three or four, we are askt to give once, generously, and the money thus contributed will be used for furthering the absolutely necessary work of the seven great organizations we know as the

No distinction of race, no difference of religious opinion is allowed to interfere with the program for the finest, largest service to our boys both over there in the thick of it and over here in preparation.

We are askt now to contribute not the \$170,500,000

originally considered sufficient, but \$250,000,000. When the original budgets were made in the spring they were made, John R. Mott tells us, on the basis of 1,000,000 soldiers in France by this time. In fact, however, there are 2,000,000 there now. If the war continues enough to the United War Work Cam-

The University of Kentucky has pledged \$2,500 of the that some of these honor huts will \$250,000,000 needed by the seven organizations united in cross the Rhine, and it may be that the war work campaign.

Bless its loyal heart! It's behind us to the last ditch!"

It is thought that Kentucky will be first to go over the top as it did in the Fourth Liberty Loan. The colleges of the state will have a share in helping Kentucky win.

If they can feel like that, they will hold their heads a little higher and go at their tasks with a new enthusiasm, a bit more "pep." Surely such a result is worth every effort we make.

Shall we raise that twenty-five hundred only or twenty-five hundred—plus?

GOOD! NOW THEN LET'S GO TO IT!

WHAT IS MORALE?

"There is not a military commander directing the movements of vast armies who is not talking about morale today. It's an important little word. It is constantly mentioned in official communiques and apparently the fate of nations depends upon it. Military experts declare that the failure of the morale of the Russian army caused the collapse of the empire of the Czar. As the morale of the German army weakens, Allied leaders make gain after gain. And the First American Army, students of warfare insist, crasht thru to a wonderful victory, because of the highly excellent morale of General Pershing's fighters. The little word of six letters which, lately has become so common in America, really has a world of meaning.

JEWISH WELFARE BOARD: DOES SPLENDID WORK:

"Has a Distinctive Place in + Camp Life," Says Mott

The work of the Jewish Welfare Board has a place of its own in camp life. It steps in where the other agencies would be less effective and it works with the "Y", K. of C. and other welfare organizations, making the Jewish contribution to the welfare program of the country. John R. Mott, 🛊 the director general of the United War Work Campaign, says of the board's distinctive work, "The most vital function of the Jewish Welfare Board is the safe-guarding and developing of the religious life and conviction of your men. This cannot be done by any other organization or worker. It is a 🚓 matter of utter importance, and fully justifies you in developing and carrying out a program to make it possible."

The question then arises, "Does this work lead to segregation in the camps?" It does not. The board itself vigorously opposes any attempt along this line. Its aim is rather, to help the Jewish boys to adjust themselves to understand and sympathize with their Gentile brothers-in-arms, and to be in turn, understood by them. An incident told of a Catholic priest shows to what extent the segregation is carried out. The priest before sailing, wrote "I have only a few more hours before leaving, and do not want to depart from my adopted country without expressing my thanks to the Jewish Welfare Board for all of the courtesies and favors which were accorded me at Camp Merrit, New Jersey, by your representatives. I am a Catholic I sincerely hope that I can reciprocate

The Jewish Welfare Board was cre ated in the year 1917, by the representatives of a dozen of the national Jewish organizations to meet the emergen cies precipitated by the war. MARSE HENRY IN **FAVOR CAMPAIGN**

With whole heart I can most earnestly approve the splendid purposes and principles of the United War Work Campaign.

In these tear-burdened days, when the whole wide world bleeds in conflict and dissension, it is manifestly edifying to observe this wonderfully conceived and admirably directed movement aimed to make all the peoples, of whatsoever class or creed, at last truly akin.

This task is big-the money sought is much-but the resultant benefits to the men in uniform and the citizen ununiformed will be dividends of undreamed magnitude in spirit engendered of love and unity and of a genuine harmony of purpose of a great people of God's most blessed land.

May this great undertaking be accepted by the people for themselves and for their boys. in keeping with the spirit of these momentous times; may the workers go onward and forward and over-to Victory.

THE ENTIRE PERIOD OF DEMOBILIZATION. While in Europe, I was told by military authorities that it will require a perod of fifteen months from the time that the conflict ceases to transport the Canadian Army to their homes, and that it will call for not less than eighteen months to convey the armies of Australia and New Zealand homeward. WITHOUT DOUBT IT WILL TAKE NOT LESS THAN TWELVE MONTHS TO BRING OUR AMER-ICAN ARMY HOME. During that long period they will have virtually all their time on their hands. They will not have the excitement and the incitement of the war period to stimulate their spirits or its intense activities to absorb their attention and utilize their time. Their temptations will be more numerous and persistent. There will be a tendency to let down standards and relax discipline. It is of the utmost importance that plans be made for the wise of their leisure hours. The practical and significant question is Shall our men and boys come back to us weaker or stronger men?

The period of demobilization should not be allowed to become a period of demoralization but rather should be made one of growth in knowledge and working efficiency and strengthening of character and life purpose. The Young Men's Christian Association and the other organizations are planning not only to enlarge their recreational program during this period, but to launch a great educational campaign. In popular language it may be described as "The University in Khaki." An Army Educational Commission composed of a group of the leading educators of America has been sent overseas. They have asked for two thousand professors and teachers of American colleges and schools to help in launching educational work for the coming winter, and also to be on hand for the period of demobilization, whenever it comes. We have entered into negotiations with the British and French universities to help us in this vast educational undertaking. One may judge of the great dimensions of the enterprise from the fact that it will require at least \$8,000,000 for textbooks and books of reference for the coming winter alone. It ought to be added that no provision is made for this educational program in the budget of \$170,500,000 and therefore in itself this plan affords a further reason why we must have a large oversubscription.

10. If there were no other reason, there should be a large oversubscrip tion in order to meet promptly and effectively emergencies and crisis which are sure to come. If you take away from war the unexpected, the surprises, the calamities, the emergencies, the crisis, you take away war.

FORMER STUDENT KILLED IN FRANCE

Lieutenant Howard J. Kinne, a mem ber of the class of '18 and a star of University of Kentucky Athletic teams, was killed in an airplane accident in France, October 1, according to a telegram received last week by his father, W. A. Kinne, of Somerset.

Kinne won his fame in the University largely thru his splendid athletic record. He won the hotly-contested game of the Wildcats with the University of Louisville, almost without assistance, several years ago, and to him was given the credit for the defeat of Purdue University three years ago, when he recovered the ball on a fumble by one of his opponents and carried it across the line, making the only touchdown of the game. Besides being a star of the football eleven, he was a member of the basketball and baseball teams of the University and distinguished himself in every athletic contest in which he participated.

Howard Kinne left school in the spring of 1917, in his Junior year to enter an officers' training camp.

Kinne was a good student and was popular among the students and faculty of the University. He was a member of the A. T. O. fraternity.

Capt. Paul W. Ensberger, senior Let the boy who bears the battle military instructor for the S. A. T. C. unit, has completed the schedule for sections A and B, the collegiate and vocational sections, both of which are to have military lectures in inclement

First call for these sections is at 5:50, with reveille at 6 and breakfast at 6:20, after police of quarters and grounds. Section A has drill before classes and study periods which run from 8:57 to 12:38 and from 1:40 to 5:21, with two and a half hours of supervised study in the evening. Section B has shop work both morning and afternoon, with two hours drill each day. Taps sound for all at 10 o'clock, with the exception of Saturday and Sunday, when the men get an earlier release and taps sound at 11.

The reception and arrangement committee appointed by President Frank L. McVey, has planned to entertain the British Educational Mission that will be in Lexington November

The distinguished educators will be met at the train by Dean F. Paul Anderson, Professor Enoch Grehan, Professor C. R. Melcher, and Professor to the Hereford Farm for lunch. At 4 o'clock they will view the S. A. T. W. D. Funkhauser, who will take them and in the evening will meet Governor A. O. Stanley and several other prominent men.

The members of the mission will be guests of President McVey for breakfast the next morning and will leave at 10:30 a. m. They have refused urgent invitations to Louisville, Nashville, and Cincinnati, in order to keep their appointment here, which Dr. Mc-Vey made with them about two months ago.

Prospective Tenant: I like the rooms, but the view from the front windows is rather monotonous.

FLU WELL IN HAND

The "Flu" situation on the Univer sity Campus is vastly improved. The present thirty-eight cases in the Student's Army Training Corps are very mild, most of them convalescing, with no symptoms of pneumonia and with only one case, Arnold Lee, at the Good Samaritan Hospital, The epidemic has been kept well in hand by Mrs. W. H. Thompson, whose former experience as Superintendent of Nurses at the Good Samaritan Hospital has enabled her to render invaluable service, with her efficient corps of nurses and assistants who have been in charge since the eleventh of October when the original sixty-five patients required their aid.

There have been only four deaths from influenza and one from measles in the S. A. T. C., while approximately 300 have been releast during this time: less than 2 per cent of the Unit has been lost, whereas the death rate in the regular war cantonements has averaged from 8 to 10 per cent. This is nothing short of remarkable, since the University was not prepared for such a grave situation, but the Gymnas ium Building was converted into an improvised hospital which has accommodated as many as 150 students at the same time. Those, who with Mrs. Thompson, have given their time and strength unselfishly to this urgent cause are: Miss Catherine O'Brien, head nurse, Miss Mamie O'Brien and Miss Portwood, with two Sisters from St. Catherine's on duty at night. Assistants, Misses Goodloe, Louise Webb, Christene Shelby and Mrs. Paul Justice. Mrs. Tevis Wilkerson is in charge of the serving of food and Mrs. Foushee is the head of the kitchen department.

Many donations made by citizens of Lexington have added greatly to the comfort of the unfortunate victims who are far from home.

The latest contributions to the hospital's larder are a case of apples and sweet milk and eggs donated by Mr. and Mrs. C. K. Graves and Mrs. John Coleman.

Those at present in the hospital are: L. C. Humble, H. J. Harrison, L. Cobb, Tom McQuire, U. H. Record, B. A. Cornelius, Andrew Holland, O. L. Miller, J. C. Milburn, William Storey, L. F. Vimont. Tong, who has been transferred from the Good Samaritan Hospital.

After being twice deferred, the opening of the classes at the University Monday for members of the Student's Army Training Corps, who were installed in barracks last week, and for residents of Patterson and Maxwell Halls, was granted at a meeting of the health board Friday. Young women students from out of town, who do not live in the dormitries, may return to the University if permission is given by the health authorities of the town or county from which they come and also by the Lexington Board of Health. The local board must decide whether town students may resume their classes.

Mademoiselle Vacarescu says that it is wonderful how the Americans fight. American heroism is even beyond what they had expected of them.

"The term 'boys' as applied to the American soldiers, has become a cherisht and household name with French people everywhere," said Mademoiselle Vacarescu.

She tells us moreover, of the good done by the Y. M. C. A. in France and its picturesque huts in the hills of Champagne and Louvaine and in the thorofares of the quaint old French

When the first detachment of Amer ican troops arrived in France there of the soldiers, from comfortable American homes, found it rather a out-houses and wherever a roof could be found. As Francis B. Sayre tells us, they "ate their mess in the middle of the street and washt their clothes in neighboring streams." There was no place to go to write letters, or play games or read. There were no magazines or books, no tobacco, chocolate or soft drinks, no recreation or amusements. They had had no letters from home, the places were strange, they had money in their pockets and they spent it for the only amusements to be had, often times not those to be desired. Is it any wonder that many became lonesome and homesick? Is it any wonder that many had to be sent back before the fight began?

Now the Y. M. C. A. is on the job over France, Italy, England and Russia. Huts, which serve the purpose of home, store and university combined, for 2,000,000 soldiers, where they may have chocolate, cigarettes, paper, magazines, books for the asking, where greet the man who has been in the trenches for a week.
